Preface

Joint Final Conference of the SmartResilience and SAYSO EU H2020 projects: AN EU INITIATIVE TOWARDS ADVANCED SITUATIONAL AWARENESS AND ENHANCED RESILIENCE

Budapest, Hungary, April 15-17, 2019

The joint final conference of SmartResilience (www.smartresilience.eu-vri.eu) and SAYSO (www.sayso-project.eu) entitled “An EU Initiative towards Advanced Situational Awareness and Enhanced Resilience” culminates the work done for these EU Horizon 2020 (H2020) projects. The main objectives of the joint final conference are not only to present and discuss their respective outcomes but also to discuss next steps in terms of how to build upon the work done for and use the tools developed by these projects in future work.

The joint final conference intends to go beyond simply presentations of project results. It will include intensive exchange of opinions, confronting the ideas, identifying clearly the pros and cons of different approaches and highlighting paths and opportunities for integration of results from the two projects. The joint final conference will involve nearly 100 practitioners, developers, technology suppliers, standardization and procurement specialists, and decision-makers eager to find the best ways to harmonize, integrate, enhance the projects’ outcomes, and achieve tangible impact at the European level.

The joint final conference will be a unique opportunity to share experiences in areas including resilience and risk governance, situational awareness systems, cross-border issues, communication, analysis and management, also by means of person-to-person talks, not only among the projects partners but also among all the interested stakeholders in Europe and worldwide.

Enjoy!

Announcement

April 15-17, 2019

Budapest, Hungary

Dear colleagues,

The joint final conference of the SAYSO (www.sayso-project.eu) and SmartResilience (www.smartresilience.eu-vri.eu) projects will be hosted in Budapest from April 15-17, 2019.

The objectives of the joint conference are to present and discuss their respective outcomes as well as to discuss next steps! The conference will involve practitioners, developers, technology suppliers, standardisation and procurement specialists, as well as decision-makers to find the best ways to harmonise, integrate, and enhance the projects' outcomes and achieve tangible impact at the European level.

If you wish to participate as a speaker, please contact us at SAYSO-SmartResilience-Conference@eu-vri.eu.

**The e-registration for all participants is available at <http://sr-sayso-conference.evenium.net>.
Please feel free to share the announcement with your network on Twitter and LinkedIn!**

We look forward to welcoming you in Budapest!

We take advantage of this email to wish you a wonderful holiday season and the 2019 brings prosperity & success.

Kind regards,

The SmartResilience and SAYSO teams
